

# SCAVENGER HUNT

Trees can be used to make thousands of products from Georgia's **FANTASTIC** Forests that are part of your everyday life. Here's a fun game that will help you learn some of the things that come from trees.

## How to play:

1. Get 2 players or divide into 2 teams.
2. Give a list (cut out below) and pencil to each player (or team).
3. Have everyone gather at a location that will be known as "home base."
4. Say, "On your mark, get set, go!"
5. Each player (or team) will then try to "hunt" all of the items listed.
6. The first to return to home base with all of these forest products is the winner!

## Scavenger Hunt List

	<b>Player/Team #1</b> <hr/> <i>Print name here</i>
Got it! ✓	<b>Forest Products</b>
	1. Leaf from a Tree
